2023

paper with a ♥

HELLO

The new Rotolux Collection is finally HERE!

Our goal is to create sustainable and beautiful gifting products for every person and present. This year we created many new designs on FSC®-paper, on 100% recycled paper, sugar beet paper & grass paper.

We hope you will get inspired by our gift wrapping ideas.

Let's get the party started!

SUSTAINABLE

We keep our gift wrap environmentally friendly. We print with water based inks, and our waste water is collected and recycled. Most designs are printed on FSC®-paper and on qualities including 100% recycled paper, sugar beet paper & grass paper. All of our paper is 100% recyclable.

MADE IN BELGIUM

Our gift wrapping paper is developed and printed in Belgium where our company is located. Having our production close to our clients allows us to stay highly flexible and to minimize our ecological footprint.

We reduce the distance our products travel by optimizing the logistics and we work with suppliers who share our commitment for the environment.

GRASS PAPER

Our grass paper is 100% recycled paper, it is a mix of recycled fibers and grass waste. Grass paper is a green alternative to conventional paper, using significantly less raw material, being recyclable and compostable. From reducing CO2 emissions and particulate matter formation to reducing agricultural area and transport movements, because the grass is grown locally. Our grass paper can be recognized by small specks in the natural beige paper.
